

The background of the top half of the page is a scenic landscape photograph. It shows a calm body of water in the foreground, reflecting the sky and the surrounding green hills and trees. The sky is a pale blue with some light clouds. The overall scene is peaceful and natural.

Role: Science Graduate
Location: Dublin or Cork (hybrid working options available)
Duration: 2 years

The Programme

At Uisce Éireann, we have exciting plans for the next five years, including an unprecedented €1.2bn programme of Capital Investment and the building of Ireland's first National Water Laboratory. This is where we need ambitious and talented Science Graduates like you to join our growing organisation and help us as we deliver transformative Water Services to all communities in Ireland. As a participant on this specialist programme, you will have the opportunity to benefit from rotations across the Science field that will allow you to build up your expertise as a well-rounded Scientist and learn from leading industry experts.

- You will complete three rotations in Environmental Regulation, Asset Strategy, and Asset Operations.
- This is supported by a structured learning and development roadmap through our bespoke Uisce University, including on-going mentoring and on the job learning.
- On successful completion of this 2-year programme, a number of permanent positions will be available within Uisce Éireann.

The Experience

As a participant on this programme, you will gain a wide range of industry experience working across the below areas :

Environmental Regulation

- Supporting on ensuring that the organisation's practices comply with relevant environmental laws and regulations.
- Take part in assessing environmental risks and impacts of the company's operations and making necessary adjustments to mitigate them.

Asset Strategy

- Support on the strategic management of the company's assets.
- Apply scientific principles and data analysis to optimise asset performance, lifespan, and maintenance needs while considering environmental impacts and regulatory compliance.

Asset Operations

- Support on the day-to-day management and operation of the company's assets.
- Support in implementing the asset strategies and ensuring optimal performance and compliance with operational standards.

About You

To apply for our Science Stream, you should be:

- A recent or prospective honours graduate/post-graduate in any Science-related discipline
- Keen on applying scientific principles in environmental and asset management contexts.
- A natural problem solver with strong attention to detail, who relishes working in diverse teams and has strong communication skills
- Someone who possesses deep levels of integrity and ethical values
- Enthusiastic, curious, and ambitious
- You must be eligible to work in Ireland for the duration of the programme

Apply Now

Apply by sending your CV to careers@water.ie by November 6th, 2023, stating **SCIENCE GRAD** in the subject line of your email. Please also answer the following questions in your email:

1. Do you have the legal right to work in Ireland for the period of the programme you are applying for? If you require a visa to work for the duration of the programme, please confirm the type of visa you intend to apply for.
2. Are you interested in any Graduate stream other than the role you have applied for? If so, please advise which other stream(s) you would be interested in.

We look forward to hearing from you!

Committed to providing a diverse and inclusive workplace with a robust strategy and framework to enable this, Uisce Éireann is an equal opportunity employer and we welcome and encourage applications from interested and suitably qualified individuals regardless of gender, age, racial or ethnic origin, member of traveller community, religion or beliefs, sexual orientation, gender identity or disability
