Column headings			Description			
Indication of Available Capacity			This register provides an indication of available wastewater treatment capacity based on loads received in 2020 and available treatment plan capacity now or by completion of a project by 2023(where relevant).			
			Green = spare capacity available.			
			Amber = potential spare capacity to be considered on case by case basis.			
WWTP Project Planned/ Underway			Red = no spare capacity available at present.			
			Project planned or underway to increase capacity and/ or improve treatment performance, based on available information in March 2022.			

General notes	(i) The indication of available treatment capacity has been determined based on a standardised national review of the available information. (ii) The information in this register is subject to change. (iii) This register provides commentary on the available capacity at the WWTP, it does not consider the capacity of the sewer network. (iv) A Pre-Connection Enquiry should be submitted to Irish Water to determine the feasibility of connecting any particular site to the Irish Water network, feasibility should not be inferred from this register.
