| Column headings | | | Description | | | |
| Indication of Available Capacity | | | This register provides an indication of available wastewater treatment capacity based on loads received in 2020 and available treatment plan capacity now or by completion of a project by 2023(where relevant). | | | |
| | | | Green = spare capacity available. | | | |
| | | | Amber = potential spare capacity to be considered on case by case basis. | | | |
| | | | Red = no spare capacity available at present. | | | |
| WWTP Project Planned/ Underway | | | Project planned or underway to increase capacity and/ or improve treatment performance, based on available information in March 2022. | | | |
| General notes | | | <p>(i) The indication of available treatment capacity has been determined based on a standardised national review of the available information.</p> <p>(ii) The information in this register is subject to change.</p> <p>(iii) This register provides commentary on the available capacity at the WWTP, it does not consider the capacity of the sewer network.</p> <p>(iv) A Pre-Connection Enquiry should be submitted to Irish Water to determine the feasibility of connecting any particular site to the Irish Water network, feasibility should not be inferred from this register.</p> | | | |
