Fingal County Council is **seeking feedback on issues or any relevant concerns that the general public and other groups and organisations would like to raise regarding Greater Dublin Drainage**. Some questions to consider include:

1. What regional or locally important constraints should Fingal County Council consider in the identification of sites for the drainage system, treatment plant, and marine outfall?
2. What concerns or potential issues do you consider important that Fingal County Council should address during this alternative site identification phase?
3. How would you like to be involved and communicated with as the project progresses?
4. Are there any other points that are relevant that you would like Fingal to consider?
